This is a collection of books recommended by parents and staff (past and present), that they feel children should read before they are eleven. We have a copy of each book in the library.

You can tick any books you have already read and then choose a book you haven't read. Remember you could always choose a book from an older section and get your parents to read to you.

If you think there are other books that could be added to this list please let us know and we will try and include them in our collection.
