

Homework Autumn 1st Half Term – Godrevy Class

After with previous years we have chosen to keep with the format used for homework and hope that it offers you opportunities to support core academic learning but also to be creative and have fun with learning. The tasks set are optional but it would be good to try at least one PSHE and Topic homework whilst **reading remains the single most important thing you can do at home** to support your child in school. The school now subscribes to Seesaw and sometimes teachers may suggest that you post your efforts for topic and Personal Moral Spiritual tasks on your journal otherwise bring them into school. The school continues to use the internet based maths resource, Mathletics, and has now also subscribes to Times Table Rockstars. You should have logins for both resources (obtainable from Mrs B or your class teacher). Occasionally teachers may choose to set tasks on Mathletics but if they do not you can practise maths of your choice and Times Table Rockstars is excellent for learning those all-important facts. Mathletics certificates and times table bands will be awarded in Friday Celebration assemblies. Teachers will also monitor children's reading records and two children from each class will be selected at the end of term for a trip to Waterstones in Truro to choose a book that the school will pay for. We hope you have fun supporting learning at home and did I mention that **reading is very important**.

Reading. Remember reading is probably the most important homework you can do. Try and read every night even if it is just for 10 minutes. Sometimes it is also nice to have stories read to you. It is not the number of books you read that matters as some of you will be reading much longer books than others. The important things are that you understand what you are reading and enjoy what you are reading. If this is not the case speak to your teacher because they will do all they can to help you read together at home. You all have a reading record to track your reading so you don't need to write anything here and teachers will now be choosing 2 children from each class every half term for the treat to head to Waterstones in Truro to choose a book the school will pay for.				
<div>Going for Goals</div> <div></div>	The Big 3 Make three goals that you think you can achieve this half term (that's not long so make sure they are realistic). Try one for English one for Maths and one for another subject or interest e.g. To read three books To complete my 4 times table band To cross the climbing wall only using green handholds. Keep a log and let your teacher know when you have achieved them.	My Hero People inspire us to achieve our goals. In assemblies we will learn about some amazing people who have done amazing things often when the odds were stacked against them. Who inspires you and why? Write a short explanation about why you find them so special or if you would prefer you could make a powerpoint presentation about them. An example that Mr Gardiner wrote some years ago about a very amazing woman called Lizzy Hawker has been attached. He would love to see some of yours.	Something New! Trying new things opens up new possibilities and with them come new challenges and goals. Get a picture or video of you trying something new and tell your class a little about your experience.	Goal or Dream? What is the difference? In school we think of goals as something we can achieve in a short time but you should not stop dreaming. Maybe you want to play for England? Help lead and change the country? Be a famous musician? Go to the moon? Draw a picture of yourself in your dream future or make a dreamcatcher to hold your dream close to you and keep the bad ones away there are lots of videos online to show you how like this one: DIY How To Make A Dreamcatcher - YouTube
Our Topic	All about Ghana This term we are learning about Ghana, a country in West Africa. Can you use the internet or books to find out about Ghana and present your findings in a PowerPoint or on a poster?	Fairtrade Hunt Visit your local supermarket and look for the fairtrade logo on different products. Can you find the origin of the items? You could present your work on a world map.	<div></div> Baking or Making Bake a cake or make something edible using fairtrade products. You could make a smoothie using fairtrade fruits. Write the recipe down to bring into class.	3D Model of the Digestive System We are learning about what happens to our food after we eat it. Create a 3D model of the digestion system and label the parts and what their function is.
Mathletics <div></div>	The school has decided to continue to subscribe to mathletics and we also now have Times Table Rockstars. Certificates awarded on Mathletics or Rockstars this term and Karate Bands achieved:
