

Planet Earth.

Rinsey Class. Summer 2020.

In this term we will study Charles Darwin and his contribution to modern scientific thinking. We will also be enjoying a trip to our capital city, London, and studying influential architects from around the city and the world.

When a move to a new house coincides with his baby sister's illness, Michael's world seems suddenly lonely and uncertain. Then, exploring a ramshackle garage with new-found friend Mina, he finds something magical. A strange creature - part owl, part angel, a being who needs Michael's help if he is to survive.

With Mina's help, Michael nourishes Skellig back to health. The creature is ill-mannered, with questionable personal hygiene, but persevering in their kindness towards him, Michael and Mina find a bond forms between them that will change their lives forever.

This unusual and captivating novel from critically-acclaimed children's author David Almond won both the Carnegie Medal and the Whitbread Children's Book Award. A contemporary classic, it has the power to captivate both adults and children alike.

- Damien Hirst.
- Peter Doig.
- Glenn Brown.
- David Hockney.
- Antony Gormley.
- Bridget Riley.
- Frank Auerbach.
- Gilbert and George.

In this Unit pupils will study how our Earth adapts and changes over time. We will be examining theories first explained by Charles Darwin and explore how modern thinking has added to the evidence about our changing Earth.
